RE: Request for a Removal Action at the Fansteel Metals Site, Muskogee, Muskogee County, Oklahoma

Dear Ms. Brittain:

The U. S. Environmental Protection Agency (EPA) appreciates having the Oklahoma Department of Environmental Quality as one of the designated Administrative Record facilities for the Fansteel Metals Site. Please place the enclosed Administrative Record with the Fact Sheets associated with this site at your facility to be available for public review.

The EPA may send supplemental volumes and indexes to you, to be placed with the initial record file. The record file should be treated as a non-circulating reference. The records should not be removed from your facility, but may be photocopied. If documents become damaged or lost, please contact this office for replacements.

The Agency is required by law to make Administrative Records available to the public at or near a facility at issue. The Administrative Record consists of information upon which the EPA bases its selection of response action for a particular removal site. The availability of these records will provide the public the opportunity to comment constructively on site activities and to understand the issues relating to the selection of the response action.

Enclosed also is a fact sheet and other documentation to assist you and your staff in answering questions by the public concerning Administrative Records for selection of removal actions.

To verify the receipt of the Administrative Record file, we would appreciate your completion of the attached Document Transmittal Acknowledgement form. Please return this form in the enclosed self-addressed, stamped envelope. For a more prompt and efficient reply, please copy the completed Acknowledgment into an email and forward to: Jo Horner at [horner.jo@epa.gov](mailto:horner.jo@epa.gov).

Thank you for your cooperation with the EPA in serving as a Field Repository. If you have any questions or comments, please contact, Jo Horner, 6SF-EC/SEE at 214-665-7366.

Sincerely,

A handwritten signature in cursive script, appearing to read "Susan Webster".
